Good morning Jesse,

Assuming your issue with the language in the motion/brief is not related to matters of grammar etc., which I doubt considering you are seeking a meeting to discuss them, I respectfully disagree that are agreement is still in place.

Let's discuss your disputed terms at 11:30 AM. There's no need to rush the 26f in a case this young—especially where we are no longer in agreement on the parties' initial pleadings and procedure.

Also, with me being in the office today, a telephone call works better than TEAMS or Zoom. I'm having some computer microphone issues.
